The New "Dorland" is Ready

ENTIRELY RESET WITH 7,000 NEW WORDS.

The revision for this new (6th) edition every sense—reset from A to Z. To "new edition." It means a new work in every case—reset from A to Z. To keep the volume within bounds, provision was made for the vast number of new words added—*well over 7000*—by selecting a type which, while even more legible than the old, permitted of getting twelve lines more on the page. This new revision attains a superiority impossible in any first edition, because it is at once a product of to-day and the result of eleven years' growth and development. Its information is of the current year; its character, the inheritance of six successful editions.
